Why is it worth choosing Rafi pet food?

**COMPLETE
PROTEIN**

**CAREFULLY SELECTED
INGREDIENTS**

NO PRESERVATIVES

BRAND

RAFI pet food line is considered one of the leading brands on the Polish market. These complete meals with ingredients precisely adapted to the needs of adult and junior dogs have been developed based on the latest norms and nutritional guidelines. They are exceptional for their complete proteins with high digestibility, selected from meat and animal derivatives. Moreover, stable raw materials used in RAFI pet food guarantee an unchanging content of nutrients, minerals and vitamins.

RAFI[®]

The foods are perfectly balanced in terms of content of minerals and vitamins, according to the latest feeding standards and proper nutrition principles. They guarantee appropriate mineralization of bones and teeth as well as correct metabolic processes. They are based on meat derivatives, making them suitable for feeding dogs of all breeds. The addition of linseed oil, a source of omega-3 and omega-6 fatty acids, vitamin E and a host of other biologically active anti-inflammatory compounds additionally provides phyto-sterols. Apart from regulating fat metabolism, these also improve the functioning of the digestive tract. Rafi pet food feature high digestibility of all nutrients and is adapted to the needs of all pets.

In the northern part of the Wielkopolska province right beside the highest hill, Dębowa Góra, amidst picturesque countryside, "Dolina Noteci" – one of the most modern pet food production plants in Europe is situated. The name itself reflects not only the rural location of the company, but also its activity which are a healthy lifestyle and properly combined food for pets, made with love. The pet food is made up of the best raw materials, high-quality products, fresh fruit and vegetables from local suppliers. Thanks to the gifts of nature offered by this clean region, the food produced at Dolina Noteci satisfies even the most sophisticated animal palate. Most importantly, the whole process may be viewed by anyone, as the facility has been adapted for being visited by animal lovers. The position that Dolina Noteci has achieved in Poland has allowed it to develop the brand also on foreign markets. This Polish pet food may be found on the shelves of pet stores in Germany, Romania, Belgium, Greece, Russia and Lithuania... And that's not all. Extending the facility has allowed an increase in production capability; therefore, for next year the firm foresees considerable export growth. The flagship export product is the Piper line, in which single-protein, junior and senior pet foods are available. Expansion of this line is continuing and the producer is constantly fostering its development and enrichment with new flavours and functional foods.
